NEK YORK, July 6.—The stock market today threw out the letharky in which it was bound hast week and sprace into some degree of energy and anomation. The day's transactions need to a larger total than has been concluded for a month past. There was no direct development in the day's news to account for the change in form and it was attributed to messenging the development of speculative operations from the recent action of the market and which encouraged an embarkation on commitments aged an embarkation on commitments ome magnitude

A jeature of the day's dealings was the large orders coming from single some s, the number of baying orders for 5,000 and upwards in different stocks attracting much notice. In the bond market there was precepting by some buying that was believed to come from investment sources.

markets both, here Money markets both, here and abroad save evidence of the renewed relations following the July settlements. Discounts were quotably lower in foreign moneys and the prevailing call loan rate here, was 1 14 per cent, with manifest pressure to place funds. There was a sharp advance in the London copper market and the mining and smedting stocks were conspicuous in the days advances. Large resumptions, in the steel mills in the Pitsburg district were a helpful factor. Another reduction in two weeks ending June 24 of 26, 1936 in the number of surplus freight cars was contemplated with much satisfaction.
